

SUMMARY

Computer Science Student & Aspiring Software Engineer with strong foundations in full-stack development. Hands-on experience designing, building, and securing web applications using Express.js, Next.js, and PostgreSQL. Practiced in utilizing Agile methodologies to develop functional software solutions and integrate local APIs. Eager to bring technical problem-solving skills and a strong work ethic to a development team.

EDUCATION

LILONGWE UNIVERSITY OF AGRICULTURE AND NATURAL RESOURCES (LUANAR)

Bachelor's Degree in Applied Computer Science
2023 - Present.

COURSEWORK

- System Architecture.
- Routing and Switching..
- Database Management Systems.
- Mobile and Web development.
- Data Science.
- Advanced SYstems Security.
- Internet of Things.

SKILLS

- Database Management Systems .
- Machine Learning.
- Software engineering fundamentals.
- Containerization and Micro Serveive architecture.
- Advanced Systems Security Fundamentals .
- REST API development with Express.js and Django.
- Frontend development with Next.js.
- Good communication.

CERTIFICATIONS

- 2023 - 2024 LUANAR Deans List Certification
- 2024 - 2025 LUANAR Deans List Certification

PROJECTS

SECURE USER MANAGEMENT SYSTEM

Personal | 2026

- Implemented a REST API using Node.js framework Express.js
- Designned and developed a database using postgresQL.
- Developed frontend system with Next.js and prebuilt components from shadcn/ui.
- Implemented session authentication using JWT authentication mechanisms.
- Implemented password hashing using brcrypt.
- Implemented Role Based Access Control.

INCIDENT REPORTING SYSTEM

Software Engineering Group Project | 2026

- Implemented Incident Reporting Service using Django..
- Followed Software engineering principles.
- Followed project management principles.
- Implemented Containerization and Container Orchestration in a Micro services architected system.
- Worked hand in hand in a collaborative environment .
